ISSEI Porto Conference

Gbliss is in line with Porto's Tourism strategy, aiming to promote not only its history but also all the projects that boost Porto's promotion as a city with a strong historical heritage.
We want to draw our visitors' attentions to activities that can be done and that are meant to get to know Porto, but also want to create unique and long-lasting experiences.

This **Jewish Heritage Tour in Porto by Gbliss** lasts for 3 hour, during this time we will walk up and down Porto's historical center walking by some of the most important historical spots of the Jewish culture in Porto and what still remains of it after the expulsion . This heritage is filled with memories recalling this community settled in the city since at least the 12th century. You will get to know the histories, their habits and traditions, along with the remaining marks that still exists but are hidden and that the Guide will reveal.
We are known by the passion that we put in when working in/with Porto. We want to show it, live it and tell it in our own way.

Life is a Tour
