

## ISSEI Porto Conference

Gbliss is in line with Porto's Tourism strategy, aiming to promote not only its history but also all the projects that boost Porto's promotion as a city with a strong historical heritage.

We want to draw our visitors' attentions to activities that can be done and that are meant to get to know Porto, but also want to create unique and long-lasting experiences.

This **Made in Portugal Tour** lasts for 4 hour, during this time we will walk up and down Porto's streets walking by some of the most important historical spots in Porto and you will be able to combine leisure and culture while shopping in the traditional shops in order to buy that special present or souvenir being sure you are buying something originally Portuguese.

We are known by the passion that we put in when working in/with Porto. We want to show it, live it and tell it in our own way.

*Life is a Tour*
