

ISSEI Porto Conference

Gbliss is in line with Porto's Tourism strategy, aiming to promote not only its history but also all the projects that boost Porto's promotion as a city with a strong historical heritage.

We want to draw our visitors' attentions to activities that can be done and that are meant to get to know Porto, but also want to create unique and long-lasting experiences.

This **Tuk & Walk Tour** lasts for 4 hour, during this time we will walk up and down Porto's historical center walking by some of the most important historical spots. You will get to know the histories, legends, the people and history that the city tells us and that the Guide will reveal. In the end you can get a tuk tuk ride and appreciate the city in a different and comfortable way.

We are known by the passion that we put in when working in/with Porto. We want to show it, live it and tell it in our own way.

Life is a Tour
